

**The Chinese University of Hong Kong
Department of Economics**

**ECON3320
Asia-Pacific Economies
2nd Term 2017 – 2018**

Course Objective

This course focuses on the current and recent experience of Asian economies, especially their growth and economic development with respect to some economic theories and models. A general survey will be on groups of economies in the Asia-Pacific region. Discussions will be on drivers of economic growth (accumulation of factors of production (savings and investment), productivity (technology and efficiency)), challenges facing like aging population, recent economic development (middle-income trap) and financial issues by lessons of the two crises in 1997 and 2008, and their role of international initiatives (ASEAN, APEC, the Belt-and-Road Initiative).

Learning Outcome

After completion of the course, students are expected to:

- have a better understanding of the Asian growth and development experience
- capable of identifying contemporary problems in the region, analyzing the issues and evaluating implemented/implementing policies critically
