**ECON1010AB/UGEC1511AB
Perspectives in Economics
1st Term 2023 – 2024**

Course Objective

This course provides an introduction to the nature of the economic problem and how society and man deal with the economic problem. This course aims to equip students so that they are economic literate. Students will learn the meaning of terms and concepts that will help them understand current social, political and economic events and be able to apply the knowledge in their everyday lives.

Learning Outcome

After completion of the course, students are expected to:

- acquire and understand the problem-solving skills (knowledge and tools, concepts and theories) taught in the course.
- be able to apply these skills in their everyday lives and current issues or events.
- master the skills in such a way that they can think more coherently and consistently about a wide range of problems (economic, social and political) and can critically analyzed on policy matters.
