Course Overview

This course is an overview of the institutional and practical aspects of the banking and financial sectors of the economy, with emphasis on how the two sectors impact on the economic well being of workers, consumers, and investors. This course is designed for students with no previous knowledge or training in economics. Topics to be discussed include: interest rate determination, operation of the banking system, banking policy and supervision, liquidity, money supply and exchange rate systems, investment returns, stock markets, risk diversification and portfolio choice, and their relationships with consumer prices, trade, investment, unemployment and the level of economic activity.

- Medium of instruction is mainly in **Cantonese**. **Recording** is **NOT appropriate** because of your **Privacy** in the class.

Learning Outcomes

Students should be able to understand the basic operation of financial market after completing this course. You might apply and interpret basic valuation methods to financial instruments such as equity, debt, derivatives. You would appreciate how the banking system and financial markets impact on the livelihood of everyone in society. You might also know how to read financial news or data, and apply relevant concepts and tools, to analyze some financial and banking activities such that you could understand the influence of financial markets functioning on general public in society.

Academic Honesty

University does not allow any cheating, or plagiarism. Your offense can lead to disciplinary actions. Please refer to the website <<http://www.cuhk.edu.hk/policy/academichonesty>> on "Honesty in Academic Work: A guide for Students and Teachers".

Assessment

Closed-book Test (45%): We have 100-minute test (**09:00 – 10:40**) with multiple-choice and short questions on **March 13th 2023 (Wednesday)**. ECON1420C students stay at CK TSE but UGEC1560C students may have to take the test at ELB LT3. It is confirmed during the add-drop period.

Open-book Final test (55%): It is a 120-minute test. Time and venue information will be released by the central unit.

NO digital device is required or allowed in the tests. There is also NO Make-up Test (unless university approval).

There is NO tutorial but you may contact our teaching assistants if you have any academic problem about this course.

Grade Description:

A / A-	Demonstrates unexpected superior understanding of all aspects of the course (basic concepts and key views and arguments in the literature). Demonstrates excellent ability to interpret relevant concepts and tools which can be applied to daily life and social customs. Demonstrates excellent ability to analyze major financial issues, banking activities and the corresponding influence on general public in society based on knowledge and relevant materials acquired from the course.
B+ / B / B-	Demonstrates good grasp of all major aspects of the course (basic concepts and key views and arguments in the literature). Demonstrates reasonable ability to interpret relevant concepts and tools which can be applied to daily life and social customs. Demonstrates reasonable ability to analyze some major financial issues, banking activities and the corresponding influence on general public in society based on knowledge acquired from the course.
C+ / C / C-	Demonstrates acceptable grasp of most major aspects of the course (basic concepts and key views and arguments in the literature). Demonstrates acceptable ability to interpret relevant concepts and tools which can be applied to daily life and social customs. Demonstrates acceptable ability to analyze some financial and banking issues and the corresponding influence on general public in society based on knowledge acquired from the course.
D+ / D	Demonstrates a marginally acceptable grasp of some major aspects of the course (basic concepts and key views and arguments in the literature). Demonstrates a marginally acceptable ability to interpret relevant concepts and tools which can be applied to daily life and social customs. Demonstrates a marginally acceptable ability to analyze some financial issues, banking activities and the corresponding influence on general public in society based on limited knowledge.
F	Failure to meet a minimum standard of knowledge base in the subject. Failure to understand and analyze any financial and banking issues.
