Course Description

This course addresses the basic and comprehensive understanding of economic features of Hong Kong's city-state economy in the world economy. It also attempts to show what are the major problems and related policies. The emphasis will be on both economic analysis and institutional arrangements of various economic sectors. The medium of instruction is English and some Cantonese supplement. Public broadcasting or media and newspapers is another source of understanding the economy.

The following is only an *indicative* outline of the course; changes may be brought forward during the semester.

- **Hong Kong's Development**
Economic performance and structure / Post-1997 slowdown / Composition of GDP/GNP and price indexes / Integration with China / Economic structure / Competition policies / Informal economy / Silver Economy and Gerontology
- **Economic Efficiency and Income Disparity**
Efficiency and equality: Income disparity / Real Estate Market & housing / Income redistribution role of the public finance system in Hong Kong / Ageing / Public Finance Setting
- **Price Adjustment and Labour Employment**
Labour productivity / A cyclical and structural unemployment / The spread and nature price deflation and inflation process
- **The Banking and Finance**
History of Hong Kong's monetary standards / Linked exchange rate (LER) and money supply / Banking and financial system
- **The International Connection**
Tourism / The current account transactions / Balance of the capital and financial account / Overall international balance of payments (BOP) account. / Hong Kong's BOP positions

We distributed the assignments occasionally. You may discuss about some economic policies and issues during the lecture. Guest speakers may be invited to share their research experience about Hong Kong economy. *

Assessment

TWO 60-min. Class Discussion Sections on **29th January (10%)** & **11th March (10%)** (10 x 2 = **20%**); **Class Participation (5%)**; **ONE 100-min. Open-book Test (09:00 – 10:40)** on **8th April (30%)**; **Group Project with slide or video presentation (~15 min.) (15%)** on **15th April & written report** submitted by **23:59:59 13th May**. **Group size** is either 4 or 5 and **word requirement** is about **15,000** (30%). As to how the project and discussion performance will be assessed, you should take a careful look on our **Guidelines** which are delivered after add-drop period. The topic is usually **assigned** by teaching staff. **Make-up assessment may not be approved.**

Grade Description

A / A-	Demonstrates unexpected superior understanding of all aspects of the course (basic concepts and key views and arguments in the literature). Demonstrates excellent ability to interpret relevant concepts and analyze major economic issues, activities, and the corresponding influence on general public in society based on relevant materials and tools.
